In Decision (D.) 03-07-028, as modified by D03-08-076, D04-11-014, and D04-12-059, the Commission imposed a Cost Responsibility Surcharge (CRS) on Municipal Departing Load (MDL) within the service territories of Pacific Gas and Electric Company, Southern California Edison Company, and San Diego Gas & Electric Company, but deferred issues relating to the billing and collection of the MDL CRS for further consideration. On December 23, 2004, the assigned Administrative Law Judge issued a ruling ordering a technical workshop to be held on January 31, 2005 for purposes of identifying positions and seeking consensus on process and procedures for billing and collection of MDL CRS. At the workshop, participants will have the opportunity to identify positions, respond to opposing proposals, and propose remedies or approaches to satisfy the billing and collection requirements set forth in the above-referenced decisions. For further information, contact Laura Martin of the CPUC's Energy Division by email at LRA@CPUC.CA.GOV or by phone at (415) 703-2149.

Public Meeting Notice - Climate Change En Banc

Climate Change and the IOUs	California Public Utilities Commission
February 23, 2005	505 Van Ness Avenue, Commission Auditorium (Corner of Van Ness Avenue and McAllister Street)
9 am – 3:30 pm	San Francisco

The CPUC will hold a public meeting, chaired by President Peevey, on the issue of climate change. The purpose of this meeting will be to move "beyond energy procurement" and to begin to identify best practices for all CPUC regulated companies (electric, natural gas, telecommunications, water, and transportation). Opportunities to reduce greenhouse gas emissions related to business operations include fleet vehicle efficiency, building efficiencies, and overall reduction of energy consumption. The U.S. is the world's largest greenhouse gas emitter and is responsible for approximately 25% of the world's emissions. California policymakers and businesses have the opportunity to proactively address this issue, to demonstrate effective leadership, and to make a significant contribution to emissions reduction. Invited presenters include representatives from the academic, research, business, insurance, shareholder activist, and state government organizations. Business and industry leaders will also be asked to respond to a recent CPUC summary paper on the subject. In addition, the IOUs should be prepared to present their current and anticipated efforts to address climate change. Information about the meeting, including a link to the discussion paper and the agenda are posted at www.cpuc.ca.gov/static/industry/electric/climate+change/index.htm#meeting and can also be found on the CPUC's homepage at www.cpuc.ca.gov. All utilities are asked to RSVP to confirm their attendance and to discuss their presentations. To

RSVP, and for further information, please contact Lainie Motamedi, CPUC Division of Strategic Planning, at (415) 703-1764 or lrm@cpuc.ca.gov.
